If you double click the file, it will first try to download the file, then to open it if possible.

I am not very sure about those mov file.

Eric, after downloading all, they will appear in the C:/RM_output/photo directory. Here's a screenshot <http://cid.ly/image0u0F1182V03>.

I think maybe we need to improve that interface. What do you think about a right-click, "Download File" option for that grid? Also, what do you think about opening audio/video files in the system default media player?

Subject: doc in facility module

Hi, Eric:

Here is how to get the doc in the facility module

Double Click that Documents cell (7),

The screenshot shows the EPA Response Manager interface. The main window displays a table of facilities with columns: Facility ID, City, Facility Name, Address, State, Zip Code, Latitude, Longitude, Derive..., County, Status, Photos, and Documents. The first row is highlighted in orange and contains the following data: Facility ID: 1, City: West, Facility Name: West Chemical & Fertilizer Company, Address: 1471 Jerry Mashek Dr, State: TX, Zip Code: 76691, Latitude: 31.815730, Longitude: -97.087340, County: McLennan, Status: (empty), Photos: (empty), Documents: 2. The sidebar on the left contains navigation options: General, Response, Hazard Eval/Recon, Drinking Water, Waste Water, Facilities/Spills (selected), and HHV.

It will pop up the datafile grid

The screenshot shows a window titled "Documents grid" with a table of data files. The table has columns: FileName, m/Vicategory, fileDate, fileDescription, fileType, and fileSize. The data rows are as follows:

FileName	m/Vicategory	fileDate	fileDescription	fileType	fileSize
AdairGrainInc2011				pdf	77
FacilityInfoPdf.htm...				pdf	15
IMG_0390_Rotat...				MOV	38500
IMG_0402.MOV				MOV	39307
UNFINISHED_U...		4/24/2013		MOV	38500
West Fertilizer Ti...	Facility Documents			pdf	10
WestChemicalFer...	Facility Documents			pdf	643

Below the table, there are buttons for "Upload Data File(s)", "Download All Data Files", and "Close". At the bottom of the window, there is a text area with the message "Drag data files or folders here."

Select all then download them, or try to open the one by one.

Let us know.

Thanks.
